**Abstract submission deadline:**  
**15 August 2019**

- CME Points are applied for -

UNIVERSITÄT ZU LÜBECK  
KLINIK FÜR KINDERCHIRURGIE

**What to look for**

Intraabdominal and musculoskeletal infections are a major burden of disease. On Friday and Saturday we would like to discuss the current evidence on surgical site infections, challenges regarding typhoid fever as well as issues related to the care of musculoskeletal infections in low- and middle-income countries (LMIC). Sunday is dedicated to concepts and visions of education to facilitate global access to safe, affordable and timely surgery. Particular initiatives of students and young surgeons, concepts of on-site training but also the necessary preparation and skills for surgeons aiming to work in LMIC will be on the agenda. You will hear and discuss not only the above main topics but also have the opportunity to meet people interested in global surgery, to share experiences and think about further projects. Furthermore you'll have the chance to try some Marzipan, enjoy the hanseatic flair of Lübeck and dance with us. We are very much looking forward to welcoming you to Lübeck.

Judith Lindert for the Lübeck Team

**PROGRAMME**

**Friday 25 Oct 2019**

13:00 **Workshops**  
Fixateur externe/Suturing/  
Intestinal Anastomosis/  
Sectio caesarea/Plastering/  
Craniotomy/Bronchoscopy
